Product Version: **8.5.0.2**

Date: **09/08/2017**

Maintenance Issues Resolved in 8.5.0.2

ID / LID (Legacy ID)	Content Matrix Edition	Title	Support Ticket Id
124719	SharePoint Edition	PowerShell jobs for the "Paste Site Objects > Navigation" and "Paste Site Objects > Permissions" actions fail due to an extra "MigrationMode" parameter being added into the PS script.	00104600
194904	SharePoint Edition	When migrating a site landing page (like 'home.aspx') that only has HTML content on the page, after migration the page does not display the HTML content.	00109529, 00106243, 00108814
242261	SharePoint Edition	Migrating a Document Library or Folder as a Document set to SharePoint Online (SPO) using the Azure Pipeline does not correctly set the Document set icon or the document set content type on the target.	00137147
251728	SharePoint Edition	When Content Matrix is configured to run using Distributed Migration, the Controller machine can inconsistently crash with an 'Object reference not set to instance of an object' message.	00132256

251279/ 252374	SharePoint Edition	When migrating from SPO to SPO, for the Date/Time format columns (like the 'Created' and 'Modified' columns) the Date values are switched if the 'Day' value is less than or equal to '12'. e.g. 04/10/2016 becomes 10/04/2016	00121051, 00138123, 00137223
284608	SharePoint Edition	When migrating from SP 2010 (DB or MEWS connection) to SPO (CSOM) or SP 2016 (CSOM) the 'Enable tree view' navigation setting is not preserved after migration.	00141052
294757	SharePoint Edition	When connecting to a SharePoint Site Collection that has 200,000+ users, the connection times out when trying to fetch all of the users.	00143775
294955	SharePoint Edition	When migrating from SPO to SPO, if a column has an internal name with special characters/spaces AND the display name of the column has been changed, an exception message is thrown: "System.ArgumentException", "Message": "Column \u0027Contact Enterprise I\u0027 does not exist. It may have been deleted by another user.	00143493, 00144905, 00145215, 00145828, 00145339
297656	SharePoint Edition	After completing a successful migration of 400+ items using the Items View (when selecting the items from a folder under a Document Library), users are unable to change the configuration options of the same job to run it again.	00145381
298859	SharePoint Edition	When migrating Document Set Snapshots (versions) the Authorship values for any Users that have been deleted from AD will be preserved even if the "Allow copying of deleted AD Users" option is not enabled.	00146161
306883	SharePoint Edition	Migrating documents from a SharePoint 2013 environment throws an "Exception: AddDocument - No ObjectXml [Object reference not set to an instance of an object.]" message if the environment has been updated with the SharePoint 2013 August 2017 Cumulative Update (v. 15.0.1953.1000)	N/A
